Objective:

To obtain a challenging software development position where I can utilize my skills and knowledge to make a valuable contribution to the organization.

Education:

Bachelor of Science in Computer Science, California Baptist University

Expected graduation: D December 2024

Skills:

- Programming languages: C++, Java, JavaScript, HTML, CSS, Flutter/Dart, Python
- Familiar with software development tools and technologies such as Git, JIRA, and Agile methodologies
- Knowledge of database management systems including MySQL and MongoDB
- Strong problem-solving and analytical skills

Experience:

Software Developer Intern, ABC Company, Anytown, USA

Summer 20XX

- Collaborated with senior developers to design and implement new features for the company's flagship software product using C++ and Java
- Assisted with the development of a new web application using JavaScript, HTML, and CSS
- Worked on the development of a mobile application using Flutter/Dart and helped optimize its performance
- Conducted code reviews and provided feedback on coding best practices to other members of the development team
- Utilized JIRA and Git to track and manage tasks and code changes

## Projects:

- Developed a web-based platform for a local non-profit organization using HTML, CSS, JavaScript, and Python, allowing the organization to more effectively manage its operations and volunteers
- Created a mobile application using Flutter/Dart and integrated it with a backend database to allow users to track their daily water intake
- Designed and implemented a game using C++ for a class project, incorporating object-oriented programming principles and algorithms to provide a challenging and engaging user experience

## Certifications:

- Oracle Certified Java Associate (OCA)

## Activities:

- Member of the XYZ University Computer Science Club
- Volunteer at local hackathons and coding workshops
